

NATURE AND WELLNESS: E-BIKE GUIDED TOUR IN THE PARK OF PORTOFINO

Explore a wonderful land full of secrets to discover with experienced local guides. Cycling along the coast, we will reach Santa Margherita Ligure, and then climb towards "Portofino Kulm" passing through San Lorenzo della Costa and Ruta di Camogli. Once at the top, we will enter the heart of the Park of Portofino, where we will take the dirt road that crosses the promontory. If you wish, before coming back we can stop at the Gassetta Mill for a morning snack with delicious local products, at an exclusive Eco-Farm* on Mount Portofino for an aperitif, or at Cantina & Grotta* for a wine tasting.

WHAT IS LA PORTOFINESE?

A project starting with a simple idea: to recover abandoned lands, to resume traditional cultivation techniques and promote a return to agriculture and animal husbandry that for centuries have been part of this region. In terms of crops, they have recovered and returned to production many local vineyards and olive groves, that were largely abandoned over the last 30-40 years, but which are very important sources of a generational livelihood.
